

## 6) Which facilities do you consider need to be introduced or expanded as new residential development goes ahead in Horncastle?

### Qualitative answers given for 'other' (148/663):

New primary school as bowl alley lane cannot cope with one way and out traffic as it is. A child could be killed if emergency services blocked

HNS Dentist

Fire services

Fully operation youth centre, this age group always misses out. Bored teenagers cost a lot of money/time in policing etc.

Bus station in more suitable location, i.e. the doctor's surgery or Jubilee Way.

Large supermarket

Large supermarket with free parking on Boston road area to help families to be able to feed their families.

NHS Dentist

More groups/organisations for elderly people

Children's groups

Adult learning and development

A walk in medical centre possibly in the hospital in North Street

OAP Recreation i.e. indoor bowls, card making and light exercise. Community TV to include sky TV and similar.

Shops/supermarkets with parking

Should ensure Wong area is kept as green open spaces + sporting, recreational and communal facilities for town

Dental

Car parking

Adult education

Police presence

Employment

Cinema/faster broadband

Dental

Shops/supermarkets other than coop

Shisha bar

New or extend present venues

Extend current gym

Aldi

16-18 education, cinema

More green space & trees, better gym

Access to computers,

More dropped kerbs

Improve toilets

More youth facilities

Buses to all areas

Parking

Bigger Tesco

Marina

Cinema, manned Police St. Adult learning

Music groups, improved NHS dentists

Cinema

More dentists, infrastructure

Emergency services cover

Flood defence, drainage

Improved drainage

Improved drainage, effective flood control

Reinstate youth club on jubilee way

More community for over 65

Less expensive of free car parking to boost town centre trade. The expansion of or job creation for to the local business community.

There should not be any further residential development until the problem of flooding has been solved (as promised)

Youth groups to avoid boredom and antisocial behaviour

Some social interaction and groups every month

Youth groups

Medical and health is need now as have to wait up to 2 weeks to book an appointment now without any more houses being built.

Information centre. Tourist info centre. Library should be open every day. Horncastle is a great town and should not be changed to mirror other places as it has its own character.

Better facilities so elderly people are not isolated in their own owns. If the rivers were dredged no flooding

More sport based clubs - e.g. running, cycling.  
Community groups for retire people to get together.  
Young mums group

Improvements to pumping station

Supermarket or larger Tesco

Tesco's to have better shop is not big enough now to provide us with a big shop we still have to travel out of town.

1) Supermarket (not Tesco they should update their present store and need competition. 2) Better local transport to outlying estates at present it is spasmodic

Public transport

The swimming pool will need to be bigger. There is space to build a new one and use the old building as a gym / NHS medical dental facility. Either way it needs more parking - not on coronation walk!

Entertainment for young and old

More should be done for pensioners who generally are a forgotten group. Meeting places for social

events including entertainment. British people should be given preferential treatment and not foreigners

Just has to wait 2.5 weeks to see my doctor. We need more Dr's and dentists in town. Schools are full. Library and tourist info should be open longer hours

Cinema

Expansion of roman heritage to attract more tourists

Police fire ambulance services

Dentist

Elderly / disabled day car

All of the options plus roads and policing would need more focus, especially road quality.

Adult education choice

Somewhere that new and old residents can buy reasonably priced white goods, TVs etc., that way we would keep more people shopping in town which would be great for HC

More recreational facilities for children between 12 and 18

Better road network

Protect library

Free parking within walking distance

Infrastructure i.e. roads drainage and sewage

Flood defences / drainage

Most important: full time employment opportunities. No new jobs - no new housing!

Cinema

Better road infrastructure as in large housing estate filtering into Langton hill or Thimbleby will ultimately cause queues as they hit the main Lincoln road

Shopping centre - increased shops, bring more people into town, busier for existing businesses

Scouts/beavers already has waiting lists

Facilities for 10-18 year olds to develop social skills and independence/confidence

Public transport

Drop in centre at war memorial

Need work to carry extra water and sewerage. Also with extra building flooding could be a problem.

Sewerage and water

Jobs

Bring employment into the town

Free car park on Wong. Free Sunday car park

The Wong as green space to be used for occasional large events for the community and to enhance tourism - essential for the whole town to benefit. Please support.

Improved facilities for disabled people

Local walk in centres for medical issues

Improve community spaces and parks. The new Bain valley park is a total mess which is why no one visits it, totally uninspiring

NHS dentist, podiatrists

NHS dentists / bypass

Youth clubs. Cinema

Cinema

High speed broadband, flood protection, drainage, jobs

Group meetings for Alzheimer's sufferers and carers etc.

Groups for older residents

Meetings for groups such as carers and those suffering condition such as Parkinson's

Industry

We do not want the development in Horncastle as this will ruin a lovely small market town

The road infrastructure needs to be enlarged in order to accommodate any increase in traffic. Was supply and flood??? Needs to be enhanced to cope with more development.

Updated rain water and sewage system no1 priority

Sewage and surface water development and update

RE: medical - it would be good if we could have another surgery or drop in center

Organisations for different age groups

More diverse shops and better public transport. Some jobs for the new residents might be nice too

Social clubs/crafting/ learning skills. Bringing people together in the community

Off road parking. Police presence on streets

Medical group cannot cater for the needs as it is - often waiting over a week for an appointment. Sports hall/centre would be a much needed improvement

Better road and local jobs

Allotments

Separate new infant school. Pref. opp. Existing school. Designated parking for parents at primary school

Larger supermarket

Parking - more houses = more cars - HC roads are designed for horses and carts and the town centre is congested already.

New supermarket and new gym + pool

The road infra needs to be expanded as further development will cause more queues around town. Lincoln Road is already chaotic during the summer season and there exists heavy traffic on Boston road every workday evening. How can we consider further housing development without doing something positive about our roads?

Increase the facilities to promote more jobs based around town (more industrial sites)

Employment opportunities

Police. Water - electric. Gas - drains

More active and social groups for the aged

Planting of woods, greens space, parks

Library

Sports

Facilities for people with additional needs, elderly, disabled, learning difficulties

Sports

Skate / BMX Park

With ever increasing population, better shop and supermarket facilities in the town which would be good for the economy

Dentist, job provision

Move bus station to old doctor's surgery manor house road

Job opportunities. Just jogged along Mareham Road to Mareham on the Hills, footpath poor - needs upgrading for walking, cycling, running at the orange trail in Florida. More exercise, fitter healthier people. And at minimal cost.

If there were more facilities (flats warden etc.) for the over 80s we could downsize when running full home becomes too much this opening up more family homes etc. to come on the market, and the release of properties for new homeowners

More support for the elderly

Better public transport - more frequent buses that run later. Further education / skills for lifelong learning

Road. The roads and narrowness of the centre of town already have more traffic than can comfortably be handle

Large national supermarket. Retention of ambulance station in town

Cinema

More academic courses at college, dental - NHS

I am against all this development in HC it is not needed or welcome and this would cause flood risk even more

NHS Dentist

Dentists - provision for the elderly

! Hour free parking to prevent shops losing trade

More volunteer drivers to take people to hospitals etc. whenever necessary. Better bus links to Lincoln, Boston. The bus leaving Horncastle for Lincoln is often full. Another deuit to cope with population growth
