

## 15) What improvements would you like to see to the shops and markets?

### Qualitative answers given for 'other' (516/663):

Wheelchair access and civility (shoe shop)

Bigger supermarket. Let Tesco's new build

Charity shops not allowed selling the variety and amount of new goods. Need a shop for menswear.

More variety and choice

More choice

Big supermarket required

None - we are fine as we are

More variety

Ask shop owners and markets stall holders what they think. Free parking and frequently buses with good connection times will bring people into the town, as will clean streets.

None

Less charity shops

Less charity shops

More pedestrianized areas

More variety

More clothes shops for the over 50s in that fashion.

1st hour free parking. Lidl or Aldi instead of 2 co-ops

Natural chain. Great loss when Woolworths went and replaced with a cheap common shop. Wilkinson's would have been a far better choice, as wide range of goods available at reasonable price. NOT more charity shops!

A large Tesco. Small branches of chain stores - boots, M+Co, Smith, M&S Food, Costa coffee

A Large supermarket on Boston Road with free parking

None

A good clothing shop for men and women

More variety

Necessities for all family. More clothes, especially lingerie.

More variety of shops and market stalls. Better value shops.

Variety of market stalls

More improved shops

More market stalls

Budget shops such as Aldi and Lidl. Better fresh veg produce on market.

More variety of shops

Variety of shops. No more antiques

Reduced business rates. Fewer charity shops.

Seasonal and pop-up shops to occupy empty premises. Free car parking.

They should be supported by ELDC. Lower rents + rates, car parking should be free to encourage visitors to stay.

Happy with what we have

superstore Tesco's with clothes kids uniform etc. Fancy dress shop/party shop (kids). Wilkco's, cheap cleaning stuff etc. washing stuff gardening stuff

More market stalls

Good quality clothing

Redevelop Tesco not listed

A bigger market with more choice. The shops are fine and privately owner. The charity shops are good too selling a variety of things

Electrical shops

We need a bigger supermarket for more choice

Ask market traders what they want

The market has declined to odd stalls, needs encouragement for new stall holders, see Newark on Trent. Modernisation and improvements, loss of Woolworths and boots store from town centre.

Supermarkets not large enough for families and more expensive than large stores

Tesco does need to be rebuilt- but in the right place

More market stalls giving more choice of products

More variety

Better quality and range of good sold at market - it mostly sells cheap items. A good farmers market would be good. A larger supermarket with parking and a café would be good.

Less charity shops more quality shops. Need well-known brands in town to attract people e.g. Wilko's. Market need to be rebranded and updated.

Alternative supermarket e.g. Lidl or Aldi

More courtesy should be shown to local residents by some shopkeepers. On the whole Tesco, Somerfield, coop, heron, and factory shop go out of the way to be polite. Traditional shopkeepers could do more business; indeed arrogance prevails in some shops. Don't blame the current car parking regulations for closure of town centre shops.

More competition for shops. More market stalls

The coop out, Sainsbury's/Morrison's in.

More shops that sell practical everyday good rather than luxury or gift market level. Would like a bigger market or on more days a week.

More stalls

More parking for town centre

Increased range of stalls, particularly on Saturdays. More specialist style market days to draw more tourists and out of town visitors.

Shops to be of similar variety and character of those that presently exist. Revamp market

Easier access for prams + wheelchairs. More variety

Maybe one night late shopping. Refurbish derelict shops + flats above. Enjoy craft + farmers markets

We only need one coop. Another low price supermarket would be welcome - wouldn't threaten small shops and cheap than Tesco.

Better market, layout, too many vans on site, need attractive stalls and greater variety of products

The shops would improve if people supported them more Parking is the main problem. Horncastle needs more free parking.

More variety, clothes shops, men's and children's clothes.

More variety

Cheaper car parking

Covered market

Market requires resiting to enable more access. The shops are dingy, dirty have little or no curb appeal - (the whole town centre) to new arrivals) is neglected and uncohesive. The smell from the cafes is repulsive - more modernisation is required.

Fill empty shops that are empty first, enlarge the Tesco we already have

More variety i.e. gents clothing

Better/more market stalls

Cheaper prices in shops so don't have to go out of town. Supermarkets are reasonable just need to sell more household goods, kitchen & home things. Also clothes for children etc. Bigger Tesco. Market need to be bigger on Saturdays, like Thursdays.

Fruit & veg market stall. Larger supermarket.

Access, e.g. parking. Consistency of market stalls available, value for money.

Bring back Woolworths (or equivalent)

More variety of products

Bigger supermarket

More shops for younger generation. More household goods (e.g. Wilkco's). Cheaper supermarket (e.g. Aldi)

More variety. Sell games

More variety; i.e. something to replace Woolworths

Get rid of coop and offer more competition please.

Horncastle is a lovely town. Its problem is that the streets are clogged with parked cars, its pavements

are splattered with dog fouling and it is litter strewn.  
Solutions: free parking, limited streets parking dog wardens, litter wardens. This would encourage visitors and tourism and generate prosperity. Quite simple really.

Department store, ring road

Department store, ring road

Large department store, ring road

4

Cheap household shop like Wilkco's/Poundland

3

More variety. Less antique shops. Less charity shops.  
More for elderly. Clothing shops

Superstore

Superstore

More choices

More market stalls

More stalls free parking on market days

Larger Tesco/fuel, some chain shops, clothing

Big supermarket

Ok as it is

More variety

Ladies, men's wear

More market stalls, improve shop exteriors

Less charity shops, more variety on market

Too many small shops

Better market

More variety

More choice & value

More market stalls

More clothes, less bric-a-brac shops

More market stalls

More variety, bigger shops

Variety

Close market

More choice, clothes shops

More variety, expand market, larger supermarket

More market stalls, less charity shops, larger supermarket

Return farmers market to Saturday

More market stalls, a Wilkinson's

Clothes, shoes, furniture

More choice

Market stalls, larger supermarket

Lower prices

Drapery

Clothes. Fish monger, sports wear

More market stalls

More variety on markets

More variety of stalls

Men's clothes, Smith

More clothes shops

More variety

Bigger supermarkets

More variety

More variety & choice

More variety

More market stalls

More variety in shops

Free parking for 1 hr.

Men's clothes, less charity shops

Clothes shops

Expand existing shops, free 1hr parking

More market stalls	More variety
More market stalls, shoe shops and menswear	More clothes for gents and ladies inc. underwear
Better disabled access	More variety. Competitive prices by shops, to retain 'in town' customers. All banks should open Saturday mornings. Market traders to turn up every market day - not just when weather is good.
Menswear shops	
Return of market bicycle stall	
More market stalls	Would like to see more local retailers opening on Wednesdays (all day). Existing supermarket upgrades, particularly Tesco's
Large supermarket	
Clothes, mill shop	More speciality food shops/local produce at reasonable prices.
Shops open long	More variety
More variety of shops	More ramps to help the old and the infirm
Clothes shops, free parking	More variety and less charity shops
More market stalls, less charity shops	Need an averaged priced clothes chain for men women and children like peacocks. Shoe shops etc. Larger Tesco's. No more cafes or takeaways
More market stalls	
Free 1 hr. parking	Tesco made larger where it is like originally planned ten years ago. Larger farmers market.
Large supermarket	More variety
More competition	More variety
Larger market and supermarket, better quality pubs	None
Lincoln coops freehold control in Horncastle is such that any development that challenges them would be blocked. So why 2 coops? If we had a proper supermarket and not a plethora of convenience stores money would stay in Horncastle.	Reasonable rates to make it easier for shops and markets to stay open
Supermarket on Boston road - especially new housing	A shop such as Boyes
More variety	More variety or shops - empty ones filled
More stalls	More variety
More stalls	Better market has gone downhill over the last 8 years
More variety	Less charity shops. Shops won't improve as not much incentive when customers go elsewhere because of parking cost. Need 1st 30min FOC
Cleaner roads and buildings, colourful market, town centre looks depressing.	More! But online is still cheaper and better. Large Tesco's, less pubs/cafes
The market needs more stalls/variety	
More shops for the 60s and 70s 80s age	Tesco should be built up to make a better store where it is. It is too cramped to be adequate. NB I like the range of shops in Horncastle
More variety	

Wider variety of shops - less takeaway/eating places.  
Sat. market too few stalls.

No to more coops - Sainsbury's ASDA instead

More variety - that are not overpriced.

At least we do need a clothing supermarket to get school uniform and male and female clothes.

More choice and a big upgrade for the market

No more second hand/junk shops. Large supermarket.  
The Horncastle market is very poor indeed - need new traders for people encouraged into town. Perhaps a few smaller outlets for clothes etc.

More chain shops e.g. Wilkco's

Adequate for current size of town

More variety and more competitive prices

What market? Better choice of products i.e. men's clothing, DIY, young children/teen products

A larger supermarket

I am happy with the size and variety of shops in Horncastle and will use the internet. I travel to Lincoln as and when required. It would be great to have a shop like Wilkco's for household items. Farmers market good. Only complaint is some shops are not easy to access with a pram/pushchair

Less charity shops

More variety. Less charity shops

More stalls on market days

More competitive supermarket / extra craft market - and an improved facility for hardware (since closure of Woolworths) and menswear

Menswear shop. Work wear. Shop like Dunhelm mill

Variety e.g. clothing

Our shops are excellent. I would like to see more stalls on the Saturday market. It's nowhere near as good as the Thursday market. We do not need another supermarket or a larger supermarket

Market updated cover stalls

Some shops, refurbishment, market, increase of stalls

Current supermarkets enlarged#

More variety in market

More choice of footwear shops and ladies clothing

Better market turnout. Fill the empty shops. No out of town retail

More men's and kids clothing

More variety of shops

Shops are ok. The town shops are good and give the town its character. If a large supermarket was to be built in the town it would devastate the town's shops and ruin its character. Seen it happen to other towns.

Too many tea shops. More general shops required.

More market stalls

More competition between all who function as a shop or supermarket

Would like to see clothing shop suitable for older shopper. One late night shopping.

Less traffic

Reduction in charity shops. Move with the times for the younger population

Allow Tesco to expand to provide a full service

Utilise and develop existing facilities to attract more retail opportunities and variety of produce (branded merchandise)

Space for the market is too small to matter, somewhere larger would be fantastic

Bigger supermarkets. General stores - Wilkco's. Clothing

For supermarkets to be slightly bigger, not always enough range of products in them

Food shops especially local ones are very good, but there is only one shoes shop and no clothes shops.

More courtesy in shops. E.g. sir madam and not mate love

Tesco's to extend the floor area either vertically or horizontally making better use of the existing site and keeping it in the town otherwise the town will die.

Less charity shops. A shop is needed on the line of old Woolworths. Boyes perhaps?

Larger supermarket (not Tesco's)

Tesco should have all departments like F&F, kitchen accessories etc. Horncastle needs more shops with clothing, shoes etc.

Greater selection for gifts and clothing of more modern styles as well as expensive stylish clothes for the older person

To have cheaper shops for people on low incomes

Clothing shops that are average prices, existing ones to expensive. Fewer charity shops. More choice of market stalls. Tesco should have had permission to build store on Lincoln road - that would have given employment a boost and stopped a lot of people leaving town to shop at other large supermarkets.

I would have welcomed the building of a larger and better stocked Tesco. By refusing to the store Horncastle's town council forced many people to shop elsewhere and ultimately was a retrograde step. A better and large deli the Myer's would be welcome.

Saturday market is a joke. Please improve with more stalls

A mothercare type shop with child products, all in one shop - nappies. School sized clothes etc. but less expensive in town centre. Cloud Tesco build café/toilets at the back. Even a small one would attract custom and be of benefit to those who travel with young children and old people who wait three hours between buses all year round in v cold and hot weather. A peacocks would benefit the town centre. They have all sizes, baby clothes, from 8+ to adults and children's clothes especially footwear etc. at reasonable prices, with some changing rooms- lack of such in town at the moment.

Larger market. More independent shops

More choice of alternate goods and easier parking

Clothes shop for bigger sizes - ladies. Another supermarket e.g. Morrison's, Sainsbury for choice, Somerfield should never have become a co-op we don't need two.

More market stalls. Retail Park outside of town. Morrison's supermarket

More variety, no more craft of shirty shops

Great variety of shops. Too many charity shops. Markets ok as only buy food there and it supplies a good variety for this. Shops to attract visitors and specialists.

Cheaper rates for market stall holders to encourage more variety of stalls

Less antique shops. More general stores

Improve range of goods. Another supermarket would be good so that people would not need to shop elsewhere

Better parking facilities with free first hour

Something like Wilkco's in town

More veg and fruit stalls. A DIY shop

A good general shop for women

Larger supermarket with more choice

More clothes and shoes shops

Larger shops and a large supermarket

Small shops cheaper. Supermarket in town. More clothes shops. Larger area for market stalls charging stalls less to give more competition against supermarkets

A better range of material goods at competitive prices

Men's practical clothing shop/outlet. Greater range of market stalls

Bigger market with greater variety

Most people have to shop out of town because local supermarkets do not stock the range of products required. A large supermarket would not affect local shops we would still use the butchers and bakers.

Shopping is good in Horncastle

The three supermarkets are mediocre. It would be sensible to have two better establishments on two of the three sites and free one site for housing

development or in the case of the main street coop for retail units and flats.

No more charity shops. More market stalls.  
Supermarket

Satisfied with way we are

The market is in need of regular traders.  
Specialist/craft and farmers markets are positive

A bigger better market more stalls etc.

More variety and somewhere to purchase TV and dv washer etc. at reasonable price.

Variety

More clothes shops and an indoor market

More variety

A more diverse range and longer opening hours

More clothes shops

More modern

More shops

Different supermarket

To be good

Better high street shops

Bigger range

Don't require more shops, just improve the ones we have e.g. Tesco could expand @ their current site. The coop on coning st. is a waste of precious space. Fill empty shops - have 'pop up' shops

More clothes shops, parking should be free for first hour - parking is a big problem and puts me off going into town

Not another supermarket but upgrading of those existing

More attention to maintenance of shop fronts/interesting shop windows etc. e.g. Johnsons/Myers are good examples

Another major supermarket to give more choice.  
Shopping mall area

Another supermarket to give more choice. Shopping mall with more variation of affordable shops.

Reduction/removal of business rates. A level playing field in relation to charity shops

More supermarket competition to drive down prices. Market needs to have better choice as there is no competition between stalls as the don't have two stall the sell the same things

1) I would like the coop food store to be replaced by a competitor food group to give greater choice. 2) The district council's policy regarding Thursday and Saturday market is restricting and hampering growth of stall holders and buying public.

More choice. More local independents

Clothes shops for men and women

Variety and competition. Fewer charity shops

More variety

They suit my needs

Different range of market stalls to cater for all ages. Gents outfitters - 2 hour dry cleaners at moment too costly for all garments sent away. A builder society. Wet fish shop

Decent supermarket e.g. Sainsbury's. A Woolworths replacement e.g. Wilkco's

More variety and better parking

Men's clothes shop. More variety of market stalls

Affordable good quality clothing, hardware, house wear, DIY and gardening. Food

More variety. Open later one evening for us to shop who work out of town - butcher, hardware, green grocer, and bakery. More stalls on market

I like independent shops but some are open very shorts hours. E.g. tourist info can be closed bank holiday Monday, Tues, and wed. Afternoon. Other shops open Tuesday and not Monday and visitors find it very difficult. Other shops close all day Wednesday. We need some consistency

The same day for closing

Outfitters clothing and another DIY

Horncastle need to attract more stalls to the market and the council should put pressure on the existing shops to smarten up. Quite a number of shops in the town center could do with painting and drainage work. A lot of gutters are full of rubbish and need repair

Clothing for men and women. A supermarket such as Aldi

Support more specialist shops relevant to a market town and promotion of tourism/visitors. Horncastle must remain unique but welcome classier

Better selection of shops

Clothes shops

A menswear shop badly required

Already a good variety of shops. New factory shop very useful. Town is lovely as it is. I love walking to town - sometimes just to browse but usually for food and library

Cheaper parking

Wednesday afternoon opening. Undercover market area and cheaper rents

Variety of shops to bring people in to our town. No more charity shops.

More for children's items. More reasonable priced items. McDonalds or KFC for children. More pushchair friendly eating places.

Bigger market

Another supermarket only is big enough to stop the need to travel to Lincoln or Boston - if not than no advantage.

Less charity shops and antique/junk shops

More stalls

More variety better now we have got a factory shop

Existing supermarkets made bigger and better. A better and larger boots. A Boyes

Larger market stalls - wet fish shop

We need a larger supermarket with will also encourage more people to the town

Personally not interested in the market, would prefer to see more variety in the shops, whilst I'm reluctant to suggest becoming a 'deli' town like Louth, they do have excellent food shops

More choice in all areas

More disability access

Yes but not if you have to build them

Small shopping centre

Larger supermarket. More variety i.e. menswear, young person's clothes.

Market - more stalls. Shops - fashion shops for the youth, menswear, and more choice.

Good mix already for a small town - do away with parking charges to encourage use of shops and market

Improve choice and quality in Tesco

Less charity shops and antique shops

More variety

Bigger market, B&Q, clothes shops, or Homebase

Rents to be cheaper on stalls and empty places

Cheaper stall rentals so greater use made of market stalls and charges on the day for unused spaces to be utilised rather than empty.

More stall to encourage visitors

Market needs to be full to attract people from out of town.

Greater variety, no clothing shop mid to top range

None, they are ok for their size

1

More variety and larger supermarket

Fewer junk shops and charity shops

More variety, more leading shops e.g. Wilko's, peacocks, Superdrug etc.

Less charity shops, more clothes and shoes shops

More stall in the market. More reasonably priced fashion children's and men's shops and shoe shops

More clothing shops. Arts and crafts. Music shop. Teenager's clothes shop

More sophisticated - specialist food and provisions. Clothing. Arts and crafts. Few charity shops.

If population increases large shops would be needed e.g. supermarket

New supermarket if population increases

Wilkco's would have been better than herons. Cooplands - urgh

Lincolnshire coop and the cooperative both sell the same products at the same price which does not give Tesco's any competition

More shops, bigger market

Bigger supermarket

Vibrant market. Provision of free parking for stall holders

Too much improvement would change the character of the town and its history but not being able to walk far. I'd like a market that was easier to access

Just improve supermarkets we have already. Variety and competition

More choice for children's clothing. Larger supermarket choice

Wider range of goods stocked, competitive pricing

More market stalls. Free car parking for shoppers

More choice

More stalls. Up to date shops. Less second hand shops (junk)

More clothes shops men and women

More market stalls

Empty shops filled and the market to stay all day, not go home half way through the day. Because of weather. A please no more antique shops. Footpaths

are for pedestrians not for cars and other types of transport to park half on road and half on footpaths

More occupied shops, less charity shops

More men's shops and children's wear

Markets - more cultural events, jazz music, street artists, Support entrepreneurs by keeping shop rates as low as possible to give them a start.

Larger supermarket

More clothing. Fewer charity shops

A larger supermarket would keep people in the town rather than travel to Lincoln or Boston. Larger market with more stalls - not empty ones

Better parking facilities

Urgently need a Morrison's or Lidl. Tesco is the worst supermarket I have ever come across and bot coops are too expensive. Ideal site would be a158 Spilsby road next to Caravan Park, plenty of space for development. This would be sadly required if the proposed property building is passed.

We need household and menswear shops. We need a Wilkco's type store not another supermarket. Why is the Saturday market so poor? Consider having Thursday market only

I work until 3:35pm and the market has packed up and gone a long time before that. Market needs greater variety of stalls. Less cafes/hairdressers. Encourage a greater variety of shops and later opening hours.

Bigger variety, crafts, better fruit and veg stalls, bakery

More stalls needed on the markets

Bigger and better

More variety. Larger supermarket would make this possible

Not Tesco, Lidl Morrison's of Aldi. Better presentation - looks???? Make market into a semi-covered area and get rid of the parked make it a feature of the town

The market is so poor it may as well just have one day a week. No men's clothing. Free 3 hour car parking - make market place car park free for disabled parking and for disabled toilet

Do not want an additional supermarket. Would like to see the old Somerfield be say, Aldi, or Lidl

Relocate Tesco to Lincoln road as proposed make it larger and use the area it presently occupies and its parking area for private houses for those who need to be close to the town centre

Shopkeepers to generally improve outward appearance of shop i.e. painting general cleanliness of streets

More variety

More variety. Menswear

More variety, bigger stores

Everything is for old people

More clothes shops

Less charity shops, bigger supermarket, more shops with Wilkco's/peacocks

Bigger supermarkets, clothes and shoe shops for male/female

Easier parking, wonder pavements or pedestrian's only town centre

Markets have had their day. The usual market in town isn't big enough and doesn't really sell anything you want to buy

Market should be extended with rents reasonable and more stall holders would attend

Sunday opening

More market stalls

We need an Aldi/Lidl/Morrison's

More market stalls. More clothing shops including children's

Economy stores needed in all sectors i.e. Lidl, Aldi, Wilkco's, and Superdrug, Boyes, Weatherspoon's, means and women clothes and footwear. Provision is

for betting off honourable exceptions: heron and kemps

Very little as existing shops are very good.

Move the bus stop/station from the town centre. Provide a bypass so that a pedestrian area can be developed.

More variety of shops

I have circled yes but would mainly like the existing supermarkets to provide more stock. The market needs to have more choice. It would be nice to have more clothes shops for children men's etc.

A wider variety at markets, more stalls on a Saturday

I would like the existing shops supported

More range in supermarket and market. I.e. small clothing range even just children's

Bigger supermarket, gifts, and clothes

More shops that sell gifts, stationary DVDs

More variety

1

Full 6 day trading with no half day closing

Diversity, Saturday market almost dead most weeks. Too many of the same sort of shops. New shop in church street another delicatessen and café! Unnecessary competition

No more antique shops, existing supermarkets bigger. The existing shops are fine but limited. Too many cafes and tea shops. Please encourage market trades. Also, provide some purpose-built units to encourage more shops - trading cannot expand in town centre without premises to move into.

More variety. Wider range of provisions

Provisions of gents wear shop

Individual shops, no more charity shops. Encouragement for more stalls in the market. Use to be made of shop premises that are currently empty.

No more charity shops

More stalls at the market

More variety

More selection not more of the same

Better range of shops/school uniforms/sports equipment/toys / books. Choice.

Bring down rents and rates this would reflect in shops and prices and markets

1. More able to buy necessities such as menswear, ladies wear (everyday type wear). 2. Supermarket where majority of population live i.e. south of town

Better market, the present market is total rubbish

Bigger better supermarket

Small, independent, specialist. Horncastle should retain its individual character - that's what attracts people to visit and live here

Limited no. of those shops. Larger supermarket with greater range in clothes. More vibrant market

More variety of market stalls. Night time only deliveries when by large vehicles

Extend existing shops/supermarkets

A big superstore is long overdue as all the people who shop in Lincoln would stay local and use the smaller shops more instead of buying everything in Lincoln

No parking high street. Market expended. Shops are fine. Should be used more by locals

More choice. Larger supermarket and petrol station, shops open till 5pm on Friday. Banks open until 5:30pm at least one day a week.

More stalls as the market seems to dying we seem to have a lot of food outlets and antique shops but very little of anything else.

More shops selling clothing, household, linen etc.

A larger supermarket would offer better choice and keep people in the town rather than travelling to other areas

Use of empty shops. Market need improvement, I use Louth as a better variety

More individual shops i.e. Louth

More market stalls

None

A bigger market better choice of shops i.e. men's outfitters

I don't need to name shops but I have a car and work elsewhere so I have access to better facilities. People with no transport or on low incomes might benefit from xxxxx shops in town. HC doesn't need another supermarket but it could benefit from the closure of Tesco + Coop sites

The market is getting smaller and less choice it used to give character to the town. A larger supermarket is needed to avoid travelling to Lincoln - Louth and Boston. Parking charges and too high to shop in town centre putting an extra £1 on the price of a singular item

More stalls on the market. Less junk shops. One big superstore and a big Aldi

Shop premises that already exist not being left in disuse

More infant and male clothing shops

Less charity/antique shops

For me HC is perfect, all shops easy to reach, easy to walk to all helpful

Better market, more stalls, shops are good, need to encourage shoppers to the town

The market is quaint but doesn't really sell anything I would like to buy on a regular basis. More variety. A large out of town store would benefit HC i.e. m and s on Wragby road - ha-ha it's not going to happen.

Wide variety of products

More variety

More variety

I think Louth has a good mix of shops and a much better market. It's a shame he isn't the same

More choice. Menswear

Modern supermarket

Become more modernised such as Louth - Tesco clothing, Argos, trendy fashion

More variety (sporting goods). Less charity shops & antiques

We need more clothes shops

Improved free parking

Variety

Notice boards not to be displayed on footpaths, businesses not to display their goods on footpaths. Most important pedestrian crossing to Banks Street for children and us going to bowl alley land school and houses

I think that the high street should be made more attractive i.e. shop fronts painted

Reduced rent might bring some more stall to the markets

Much more market stalls

Clothing shop

Like them as they are

Menswear, more stalls on market days

Greater variety in types of shop e.g. deli, different restaurants, niche shops and shops for different income levels

More selection

Fewer cafes - the town centre is being taken over

Reduce antique shops. Argos, peacocks etc. bring to town no more tea shops!

Reduce antiques shops. Bring an Argos, peacocks etc. No more teas shops

Better selection of shops other than foodstuffs. There is a very limited choice for anything else. Create employment

One larger supermarket to place one or more smaller ones

Better selection of market stalls, bigger market

Market better supported - so more stalls and more variety

I believe Horncastle has an exceptional range of shops - you can get everything you need. I would like to see the market bigger with greater variety

Bigger supermarket and more up market brand

Less charity shops selling new goods. Not fair to shops paying rates. More choice for general shopping. Less antiques and bric-a-brack

Limit the charity shops, Boyes clothing shops.

More choice and competition - e.g. why do we need 2 coops selling the same items at the same prices

Shops open on Sundays. Markets - more craft stalls/market with events. NB could have an out of town Retail Park like middle brook, brings in job opportunities, successful, and if on Lincoln road would capture traffic to Lincoln.

A bon Marche would be very welcome

Better market, more stalls, variety, better supported (like Louth) to encourage more people from outside footfall

More farmers markets

Full occupation - less charity shops

Better variety of shops / stall to cater for a wider age range. Reduction in number of antique and junk shops

A large supermarket with free parking

Market is very sub-standard and unappealing

Need a bigger Tesco, we with family have to shop online to get large bulk items etc? Don't think improvements would help people shopping trends have changed. Need more choice

Keep going, add more variety if possible. Another or a bigger supermarket will kill off the town

Not another supermarket. Just one with more range. The odd high st. name on the high street would strengthen the variety of shops

More variety of goods available. Supermarket stock is very limited

Expansion to Tesco or new supermarket allowed to build in town e.g. ASDA, Sainsbury's, and Morrison's

Empty commercial premises should be opened ASAP if only for charitable or community facilities

1. More disabled access - dropped kerbs. 2. Tesco to concentrate on food and drink only. 3. Cap number of charity shops in town. 4. More rubbish bins

Greater choice

Shops open on evening per week. More stall in market, especially food. No more charity shops

Suitable parking space near the shops

The shops are excellent but they can the market need to be helped as much as possible. So no big new supermarket and more free parking

More clothing shops, wider choice or products (similar to Louth). More support for local traders. Both shops and markets don't use them we lose them

More variety

The Thursday market is very good but the Saturday could be better

More choice of shops, more stalls, market auction

A larger supermarket with cheaper petrol facilities etc.

Free parking to encourage people to visit the shops and market. Shop keepers to be more pro-active such as organising events in the town

More on the market

We would like to see another supermarket in town to create real competition. A supermarket that includes a petrol station would be ideal e.g. ASDA or Morrison's to increase competition from 2 coops and 1 Tesco. We need a supermarket that will reduce prices in this town to an affordable level.

Don't use markets as much as I should. Later opening times on select day as am working all day.

More stalls on the market. No change in shops

No change needed

A better supermarket - at present they are all very mediocre

Market to be encouraged to grow and diversity to stay operational till later in the day. It's packed away by the middle of the afternoon even in summer

Satisfied

I would like a better supermarket - not necessarily another. The present ones are very basic. More variety and good quality items and a good bakery would be appreciated. Clothing shops are lacking for both ladies and gents

More choice

Specialist markets - I like the farmers markets. Other markets are poor - range of goods narrow.

More variety especially clothes shops

Dog mess needs addressing

Provision of good menswear shop, market place full of occupied stalls.

Larger supermarket with bigger selection of goods. Less charity shops

More market stalls - v. disappointing turnout some days - doesn't encourage people to visit. Do something with the old 'family tree patisserie' been closed too long - looks a disgrace in the centre of town

Better shops instead of junk/antique shops

More variety of shops
